# How would you rate your experience on Lobos@APS Day?

ANSWER CHOICES	RESPONSES	
Excellent	92.11%	35
Good	7.89%	3
Fair	0.00%	0
Poor	0.00%	0
TOTAL		38

**Goal: "To connect faculty and staff leadership to their role-alike teachers, administrators, counselors, nutritionists, athletic trainers, and others in the Albuquerque Public Schools (APS) (or other districts and school sites) to experience a full day of all aspects of public schooling in 2024."From your experience, was this goal achieved?**

# Key Takeaways

- 1. Academia does not have to function disconnected from the applications it seeks to influence/transform, and 2. Rich dialogue about strengths and future growth are necessary points of collaboration.
- I really appreciate the connection between UNM and APS. This brings college career readiness to the students.
- 1. Bilingual teachers are navigating A LOT of curricular expectations. 2. The school's commitment to the community runs deep and culturally sustaining approaches are valued.
- I won't have any until we know whether this experience leads to greater efficacy in the teacher ed program. This was no more than a very early step to greater align educator education classes and the day-to-day realities of teaching in a public school.
- I loved it! Human connection to the work and uniting the research and practice!
- Focusing on our bright spots and potential collaboration.
- We are inter-dependent, there are many opportunities for us to connect in the future, we've had missed connections that we can capitalize on in the future
- Potential for collaboration to highlight the great work being done.
- I love the reflection and inspiration. I'm hoping that everyone follows through on the opportunities for this valuable partnership!
